

***"I'm an employee of Stericycle. I just discovered through one of your articles what the company I work for does. I've been told I have a very promising future with them. It broke my heart to learn they enable mass murder of innocent babies..."***

"Members of a national anti-abortion organization called Created Equal are barnstorming battleground states in the final days of the election," read a report on WJCT-FM radio in Jacksonville, Florida in early November, commenting on our **#VoteAntiAbortion** campaign.

Elections are pivotal moments not only to choose leaders who will defend truth and justice but also to educate the masses on what abortion does to preborn babies. That's why the central component to **#VoteAntiAbortion** was imagery of the victims themselves. From the airplane tow banner to the Truth Truck, from the JumboTV trailer to signs held by boots-on-the-ground activists, the victims of abortion were once again central to all of our efforts.

***#VoteAntiAbortion*** included the JumboTron (top left: Cincinnati), airplane tow banners (top right & bottom), and more!

And while Americans did respond to our effort, our mission was far bigger than the contest for any particular office in the country. We had our

eye on the long-term goal of changing the heart of the nation on abortion—which is most effectively achieved by exposure to visual evidence of the crime.

**WE NEED YOUR HELP TO CONTINUE EXPOSING THE INJUSTICE OF CHILD-KILLING. YOUR SPECIAL GIFT OF ANY SIZE ALLOWS OUR TEAM TO CREATE AND UTILIZE TOOLS FEATURING ABORTION VICTIMS TO MAKE ABORTION UNTHINKABLE.**

But even the whirlwind of **#VoteAntiAbortion** did not slow down our campus outreach. By the middle of October, our team had already surpassed the number of outreaches we achieved in all of 2015. See picture at right for details.

We have plans to make 2017 an even better year for defending babies. It begins with outreach at the inauguration of President-Elect Donald Trump in DC—where we'll call on him to hold to promises he made to the babies. Next we'll take the JumboTV to the March for Life in DC to represent the babies visually, encourage marchers, and activate new defenders.

And that's just the first few weeks of 2017! We're also gearing up for our *Justice Ride*. Will you help make this possible with a special year-end gift?

**Victory in court! Members of our team and I gather with Thomas Brejcha and Peter Breen of the Thomas More Society after Stericycle, Planned Parenthood's top waste hauler, failed to silence us.**

## Court Victory!

Judge Margaret Marcoullier (19th Judicial Circuit Court of Illinois) dismissed all charges brought against us by Stericycle!

This spring, we launched **#ProjectWeakLink** to expose Stericycle, Planned Parenthood's top waste hauler, which has been disposing of aborted babies and tools used to kill them. On March 29, we began distributing informational postcards in the Lake Forest, IL area—home to Stericycle—to expose their collaboration with abortion. On March 31, we were notified by Stericycle's attorneys that the company was seeking a temporary restraining order to stop the campaign.

While that temporary restraining order was eventually denied, over the next six months arguments were presented in a lawsuit by Stericycle, Inc. against Created Equal. The charges levied against us were defamation, false light, and intentional infliction of emotional distress.

Around the same time this victory was announced, we received a letter from "Dave," a Stericycle employee who was shocked to hear of the partnership between Planned Parenthood and his company. He writes,

*I've brought this up to other Christian co-workers, but it seems that most of them have no problem with working for the company. I've been confused because I'm appalled and want to throw up just thinking about working with the company. I equate it to working with the Nazi party. Yes, I'm not directly committing the act, but I feel as if by working for this company I am condoning and enabling the act of abortion. I've decided to leave the company hopefully in the next few weeks.*

*I've been searching for and applying for other jobs since I found out about this last week. I want to recommit my life to Christ and honor him and be separate from this company. I want to thank y'all. Because of y'all, God opened my eyes and is using this to recommit my life to him. I will be taking a pay cut, but I trust in God as my provider.*

Because of Created Equal and **#ProjectWeakLink**, Dave is recommitting his life to Jesus!

Finally, three graduates of our internship are seeing the cost of defending babies. After spending their summer on our team, Lisbeth, Silas, and Austin returned to their hometown of Fort Wayne, IN to begin outreach on public sidewalks at local high schools. At South Side High School, Principal Carlton Mable harassed them and threw their signs in the street!

**TAKE ACTION: CONTACT SOUTH SIDE HIGH SCHOOL SUPERINTENDENT WENDY ROBINSON (260-467-2025, SUPERINTENDENT@FWCS.K12.IN.US) TO INSIST PRINCIPAL MABLE APOLOGIZE AND STOP HARASSING OUR TEAM.**

Approaching the end of the year, we are greatly encouraged by fruit we've seen and the growth of our team. We are excited for what lies ahead in the new year—but we know we cannot do this on our own.

Will you send a special year-end gift to help us stop the killing?

For Truth,

Mark Harrington, National Director, Created Equal

P.S.— After recent outreach at University of Toledo, Ben wrote us, "I love how you were able to share the Gospel with hurting women." We can save babies and point their parents to God.
