ABORTION VICTIMS TELL THEIR OWN STORIES WHEN THEY ARE SEEN ON CREATED EQUAL'S JUMBOTRON  
 NATIONAL MARCH FOR LIFE | WASHINGTON, DC

## THE MARCH FOR LIFE

Sometimes people ask why we bring our JumboTron to the National March for Life.

These pictures are the answer.

People come from across the globe to march in DC for the babies. When they return home, they should do so with renewed passion and commitment to sacrifice.

The JumboTron allows this to happen by bringing abortion victims to their own march. When pro-life people see the babies, they are brokenhearted and commit to doing what is necessary to end abortion.

## THE MARCH FOR DEATH

Pro-life people have been marching for life in DC for decades. But for the past four years, pro-abortion leaders have tried their hand at launching a similar event: the so-called "Women's March."

While the number of pro-abortion attendees has shrunk dramatically over these few years, Created Equal continues to attend this event so that those who support killing babies see the victims. And even in this dark setting, we've seen minds changed on abortion.

Every year, pro-abortion marchers try to cover the babies on our signs, but they cannot censor the truth. There can be no movement for women which hinges on killing children. As Martin Luther King, Jr. said, "Injustice anywhere is a threat to justice everywhere."

*"I don't care if it's murder." Watch our recent video to get an inside look at the pro-abortion movement today. Join us on the frontlines at the "Women's March": <https://youtu.be/zgzsx2n54>.*

## PRO-LIFE WOMEN AT THE "WOMEN'S MARCH"

What happens when young women from Created Equal attend the pro-abortion "Women's March"? Attendees show their true colors.

The "Women's March" is not a movement for all women. It's only for those who agree to a narrow pro-abortion worldview. That's why the marchers tried again (and failed) to censor women on our team.

Babies are dying because of this hypocrisy. With your help, we can expose it!

## HIGH SCHOOL ADMIN BULLIES OUR TEAM

Created Equal is well-known for college outreach, but we are not content to let this be the first time we meet students with the truth. Our high school outreach allows us to engage students *before* they meet radical professors on today's campuses.

But while students are more open to truth at the high schools, many administrators are hostile to our presence. Recently at Briggs High School (Columbus, OH), Ninth Grade Administrator John Kuijper displayed a shocking attempt to intimidate and bully our team off of the school sidewalk.

Watch the video for yourself. Then look below to find out how you can take action to stop this interference with free speech!

*After a high school administrator tried to bully our team, the school said it stands behind his efforts. We need your help to stop this! Check out the video: <https://youtu.be/lq-OMievkM>.*

## THE JUSTICE RIDE

This year on the *Justice Ride*, one half of the team members were joining us for the first time!

These first-time *Riders* were given powerful classroom training by our team, but that was just the beginning. Over an entire week, we carefully guided them in using conversation to reach hearts and change minds.

We're accepting applications for our next *Ride*: Mar 5 -13, 2021! Email [Ian@CreatedEqual.org](mailto:Ian@CreatedEqual.org) for info!

## TAKE ACTION

1. **Donate** to help Created Equal rescue babies scheduled to die. Please see the enclosed giving form and envelope.
2. **Sign** our petition to automatically email the principal of the high school administrator who bullied our team: [CreatedEqual.org/Briggs-High-School](https://CreatedEqual.org/Briggs-High-School). Make your voice heard to call for decisive action to protect free speech!
3. **Join** our summer internship! Know a student who would be interested in spending the summer rescuing babies from abortion? They can apply to join our summer team at [CreatedEqual.org/Intern20](https://CreatedEqual.org/Intern20).
