FALL 2021

ANNOUNCING CREATED EQUAL'S 2022 *JUSTICE RIDE!* SETTLE FACTS. CREATE DIALOGUE. JOIN THE TEAM.

WHAT IS THE *JUSTICE RIDE*?

It starts with **classroom training**: How do we defend the humanity and dignity of preborn people?

We are once again inviting students to join us for our game-changing pro-life mission trip: the *Justice Ride!*

WHERE: College campuses across Florida

WHEN: Feb 25 – Mar 5, 2022

COST: ~~\$400~~ **\$300** if application is submitted on or before October 31, 2021 (includes travel, lodging, most meals).

APPLY at CreatedEqual.org/JusticeRide. Hurry! Seats are limited!

Next, we help you put your skills to the test with **outreach!**

Outside **high schools**, you'll connect with students walking home and show our signs to bus-loads driving by.

At **abortion facilities**, you'll talk with parents who've scheduled abortions. You will have a chance to save actual lives!

On **college campuses**, you'll start with a simple question: "What do you think about abortion?"

This will bring you face-to-face with common objections to the pro-life case. A veteran Justice Rider will mentor you so that you can answer these questions with confidence.

ABORTION ABORTION

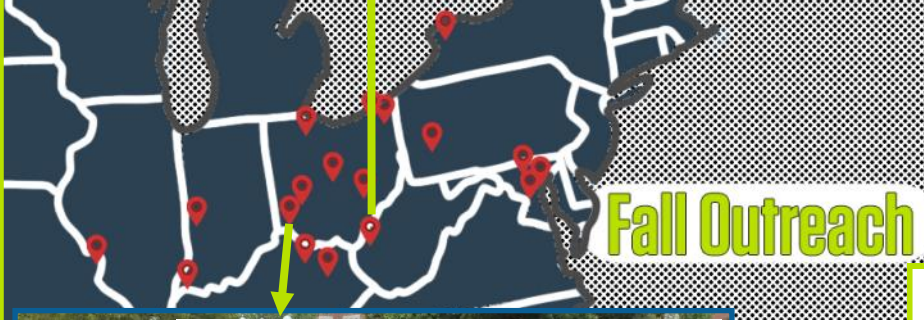

Marshall University (Huntington, WV)

We have an ambitious fall calendar—129 outreaches in 8 different states! Check out our map.

As you can see in the pictures, crowds on campus are finally back to pre-COVID sizes. Hardline abortion supporters seem eager to engage. Perhaps they fear the Heartbeat Law in Texas and upcoming Supreme Court hearings have a real shot at shifting the legal landscape.

But while they may be loudest, we continue to meet open-minded students on campus, too. Please pray for our team on the road!

FRONTLINE PERSPECTIVE

University of Cincinnati (Cincinnati, OH)

“The crowd at University of Cincinnati was one of the largest I’ve ever seen with Created Equal. Looking at the angry crowd and hearing their vulgar and hateful comments, I felt bad for them. We are already in the minority on a regular basis, but those students live their lives in a majority that does not care about truth and does not care about them.”
