SUMMER 2021

BABY SAVED OUTSIDE PLANNED PARENTHOOD

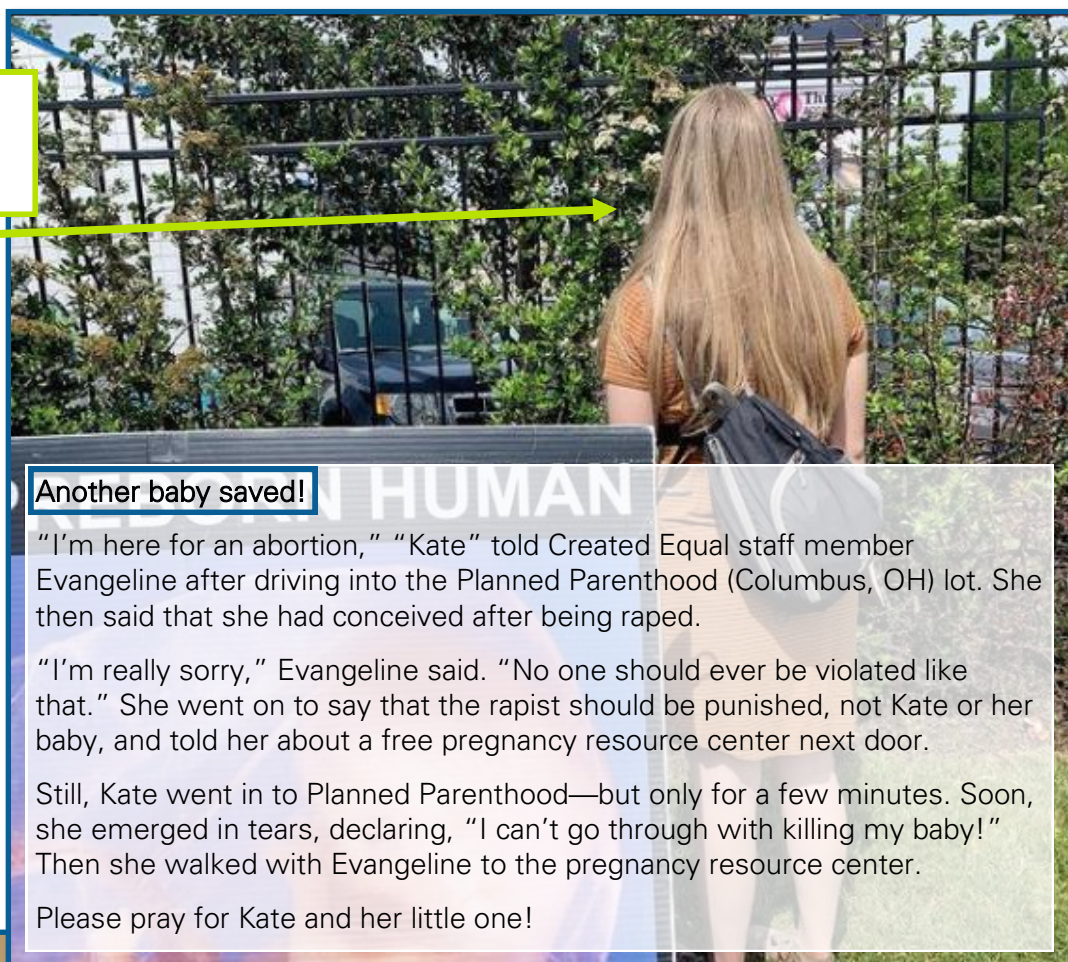

"Hearing Kate say, 'I can't go through with killing my baby,' was unforgettable."

You never expect something so great to happen on a cloudy Thursday.

We often leave the abortion facility crying for the lives lost, but this time we left crying for the life that was spared."

- EVANGELINE
CREATED EQUAL STAFF

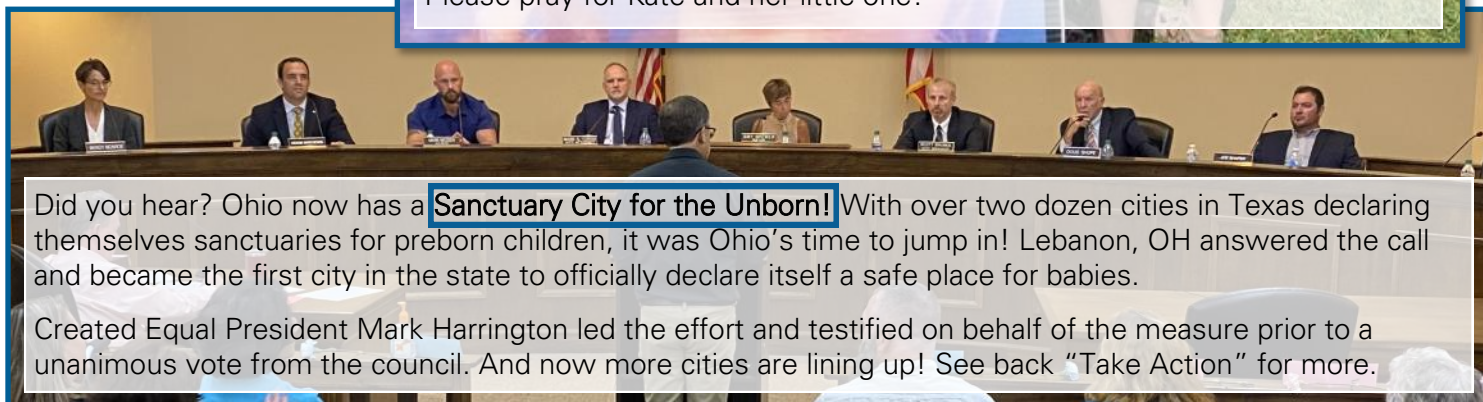

Another baby saved!

"I'm here for an abortion," "Kate" told Created Equal staff member Evangeline after driving into the Planned Parenthood (Columbus, OH) lot. She then said that she had conceived after being raped.

"I'm really sorry," Evangeline said. "No one should ever be violated like that." She went on to say that the rapist should be punished, not Kate or her baby, and told her about a free pregnancy resource center next door.

Still, Kate went in to Planned Parenthood—but only for a few minutes. Soon, she emerged in tears, declaring, "I can't go through with killing my baby!" Then she walked with Evangeline to the pregnancy resource center.

Please pray for Kate and her little one!

Did you hear? Ohio now has a **Sanctuary City for the Unborn!** With over two dozen cities in Texas declaring themselves sanctuaries for preborn children, it was Ohio's time to jump in! Lebanon, OH answered the call and became the first city in the state to officially declare itself a safe place for babies.

Created Equal President Mark Harrington led the effort and testified on behalf of the measure prior to a unanimous vote from the council. And now more cities are lining up! See back "Take Action" for more.

MEET THE NEWEST DEFENDERS

2021 JUSTICE RIDE

Created Equal's *Defenders* are students who dedicate their summer full-time to defending babies as part of Created Equal's internship.

It starts with the *Justice Ride*. This is the entry point where students learn how to rescue babies and interact closely with the Created Equal team.

2021 DEFENDERS

The *Justice Ride* is powerful, but it is limited to a one-week window. And so, from the *Riders* we build a team of interns we mentor over the course of the summer.

These interns engage in countless conversations in multiple venues to reach hearts and change minds.

And to keep their conversations fruitful, they're frequently in the classroom learning to be more effective *defenders*.

“I am seriously considering work in this area. With my degree in broadcasting, I think will have the means and opportunities to share the reality of abortion with people in a way that they will listen to and see.”

- AMELIA

“I hope that through this internship babies' lives will be saved and that I will be better equipped. But most of all, I hope that God will be glorified through the sharing of the truth and the willingness of people to stand up for what is right.”

- CALEB

“I am attracted to the amount of outreach Created Equal does, and I have never worked with a prolife organization that is so dedicated to sharing the Gospel along with the prolife message.”

- AUDREY

1. **Donate** to help us invest in these summer interns! Your gifts enable us to mentor them not only in pro-life thinking but also in live-saving actions. This is truly an investment which will bear fruit for many years to come! Your gifts of any size are **tax-deductible to the fullest extent of the law**. See attached form for giving options.
2. **Join** the Sanctuary Cities for the Unborn movement! More cities are eagerly coming forward, ready to defend babies within their borders. Could your city be the next to stand up? Go to <http://SanctuaryCitiesfortheUnbornOH.com/> to find out more and join us.
3. **Share** this newsletter with someone you know who cares about preborn babies and their parents! Tell them about our mission to equip defenders of preborn babies. Encourage them to join us so that, together, we can rescue babies, help parents, and advance the truth of the Gospel!
